# **KOYOTO SAE 30 CF-4 SERIES**

High Performance Monograde Diesel Engine Oil

# **Product Data Sheet**

#### **Product Description**

KOYOTO SAE 30 CF-4 series are monograde diesel engine oils formulated with high quality base stocks and selected additives to ensure optimum performance and protection for diesel engines requiring an API CF-4/CF-2 specification. Suitable for heavy duty, high output diesel engines where monograde oils are specified. It provides excellent protection in engines, against high temperature piston deposits, wear, corrosion and foaming under severe operating conditions.

#### **Features & Benefits**

- Excellent resistance to shearing at extreme operating conditions and retains its lubrication film.
- Good oxidation & thermal stability reduces sludge build up and keeps the engine cleaner.
- Outstanding wear protection to extend engine efficiency and service life.
- Reduced oil consumption at high operating engine temperatures.
- Improved resistance to deposit formation keeps engine clean to give your vehicle maximum power under extreme operating conditions.
- Optimum TBN reserves provide improved acid neutralization and corrosion protection, especially in old heavy duty diesel engines.

#### **Specifications**

#### KOYOTO SAE 30 CF-4 meets or exceeds following International and Builder specifications:

- API CF-4, CF, CF-2, CD-2, CD, SF, SG, SJ
- Volvo VDS

• ACEA E2

- Caterpillar TO-2
- MTU OIL Category-1

• Deutz DQC-I-05

## Application

- Suitable for use in heavy duty 2-stroke & 4-stroke turbocharged and naturally aspirated diesel engines.
- It can be used in both On-highway light and heavy duty trucks & construction and mining equipment, where high or low sulfur diesel is used.
- Suitable for certain stationary equipment, such as pumps that run continuously under steady state conditions.

| KOYOTO CF-4                   | Test Method | Units    | 10W   | 20W-20 | 30    | 40    | 50    | 60    |
|-------------------------------|-------------|----------|-------|--------|-------|-------|-------|-------|
| Density @ 15 <sup>0</sup> C   | ASTM D 4052 | gm/cc    | 0.880 | 0.888  | 0.892 | 0.900 | 0.904 | 0.906 |
