KOYOTO SYNCHRO HD 90 GL-5 SERIES

Product Data Sheet

Product Description

KOYOTO SYNCHRO HD 90 GL-5 series of lubricants are high performance heavy duty gear oils, formulated from high quality base oils and an advanced additive system. These lubricants are designed for automotive heavy duty transmissions, axles and final drives. Moreover these oils are specially engineered for heavy-duty axles and final drives where extreme pressures and shock loadings are expected.

Features & Benefits

- Exceptional thermal & oxidation stability protects against deposit formation and oil thickening, thus
- maintains the life and performance of lubricant and transmission.
- Outstanding anti-wear properties and excellent film strength provides exceptional equipment
- protection, that not only results in fewer breakdowns but also helps improve transmission efficiency.
- Excellent rust and corrosion protection for longer component life.
- Compatibility with seals and gaskets, leads to minimize oil leakage and reduced contamination.

Specifications

KOYOTO SYNCHRO HD 90 GL-5 series meets or exceeds following International and Builder specifications:

- APIGI-5
- MIL-L-2105D (U.S Military Specification)

Application

KOYOTO SYNCHRO HD 90 GL-5 series are suitable for use in all Passenger cars, On-highway light and heavy duty

- Suitable for Heavy duty manual transmissions, axles and final drives requiring API GL-5 level
- performance.
- Applications like Off-highway industries including: construction, mining, quarrying, and agriculture.
- Other heavy-duty industrial and automotive applications, involving hypoid gears operating under
- conditions where high speed/shock load, high speed/low torque, and/or low speed/high torque exists.
